SUMMARY

React Native Developer with **3+ years of experience** building and scaling **production-grade mobile applications** across fintech, e-commerce, and health-tech domains.

Strong expertise in **performance optimization**, **scalable architecture**, and **state management** (Redux Toolkit, Zustand), with proven impact such as improving app performance by **up to 75%**.

Hands-on experience with **GraphQL**, **Supabase**, **REST APIs**, and modern tools like **TanStack Query** for efficient data handling and caching.

Skilled in delivering **end-to-end mobile solutions** including payments (Stripe), subscriptions (RevenueCat), push notifications (Firebase), and real-time features.

Collaborative team player with experience working across design, backend, and product teams to deliver **high-performance, user-centric applications**.

WORK EXPERIENCE

React Native Developer — Propelius Technologies, Surat, Gujarat Mar 2023 – Present

- Developed and deployed multiple **production-grade React Native applications** across fintech, e-commerce, and health-tech domains.
- Improved application performance and stability through **code optimization, efficient state management, and reduced unnecessary re-renders**.
- Designed scalable front-end architectures using **Redux Toolkit, Zustand, and modular component structures**.
- Integrated and optimized APIs using **GraphQL, Supabase, and REST**, ensuring efficient data flow and reduced network overhead.
- Implemented advanced features such as **real-time updates, push notifications (Firebase), payment integrations (Stripe), and subscription systems (RevenueCat)**.
- Enhanced user experience by building **high-performance UI/UX** with smooth navigation, fast load times, and responsive layouts.
- Collaborated with **cross-functional teams** (design, backend, product) to deliver features aligned with business goals.
- Debugged complex production issues and significantly **reduced crash rates**, improving overall app reliability.
- Improved development efficiency by implementing **reusable components and best coding practices**.

PROJECTS

Harrir — E-Commerce Mobile Application (Iraq)

React Native, Zustand, MMKV, TanStack Query

- Improved application performance by **75%** by optimizing state management and storage.

- Migrated state management from **Redux to Zustand** and storage to **MMKV**.
- Implemented **TanStack Query** for API caching and efficient data handling.
- Built **infinite scrolling** and optimized content loading.
- Integrated **Firebase push notifications** and invoice generation system.
- Implemented analytics using **Mixpanel, Meta Events Manager, and Singular**.
- Developed **personalized product recommendations** based on user preferences.

Ambrella — Fitness Coaching App

React Native, Redux Toolkit, Firebase, RevenueCat

- Built a **subscription-based fitness platform** with professionals and clients roles.
- Integrated **RevenueCat** for managing in-app subscriptions.
- Developed **AI meal tracker**, diet plans, and fitness tracking features.
- Implemented **fitness calculators** (BMI, Body Fat, TDEE).
- Added **short-video feed** based on user goals.
- Integrated **Firebase push notifications** for daily engagement.
- Built analytics dashboard for professionals with insights and engagement tracking.

Lompa — Reels-Based E-Commerce Platform

React Native, GraphQL

- Built a **short-video commerce platform** for seamless shopping experience.
- Implemented **GraphQL APIs** for optimized data fetching.
- Developed **real-time chat** and order management system.

Eatvisor — Nutrition Health App

React Native, Supabase

- Built a **role-based system** for dietitians and clients.
- Implemented **real-time tracking** for diet and health progress.

Boxio — Event Ticketing Platform

React Native

- Developed **ticket booking and club discovery** features.
- Implemented authentication and order management.

JhaPay — Payment Wallet App

React Native, Stripe

- Built **QR-based payments** and wallet system.
- Integrated **Stripe payments** and biometric authentication.

SKILLS

Languages & Frameworks: React Native, JavaScript

State Management: Redux Toolkit, Zustand

Backend & APIs: Supabase, GraphQL, REST APIs, TanStack Query

Tools & Services: Firebase, Stripe, RevenueCat, MMKV

Analytics: Mixpanel, Meta Events Manager, Singular

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering

Gujarat Technological University

2018 – 2022

CGPA: **8.75**
