SUMMARY

Experienced React Native Developer with **2.5+ years** of expertise in building and deploying **production-ready** mobile applications. Strong background in API integrations including **Supabase**, **GraphQL**, and **REST APIs**, and experienced in working closely with design and backend teams to deliver seamless and high-performance mobile experience.

WORK EXPERIENCE

React Native Developer – Propelius Technologies, Surat, Gujarat Mar 2023 – Present

- Developed and maintained **production-ready** React Native applications for real-world users.
- Delivered multiple mobile applications with scalable architecture and smooth UI/UX.
- Integrated backend services using **Supabase**, **GraphQL**, and **REST APIs**.
- Collaborated closely with design and backend teams to deliver seamless and high-performance mobile experiences.
- Optimized app performance, reduced crashes, and improved overall stability.

PROJECTS

Eatvisor — Nutrition & Health Management App

React Native, Supabase — **Frontend Developer**

[Play Store Link](#)

- Built a nutrition platform for dieticians and clients with **role-based access** (Doctor & User).
- Users can track **diets, recipes, consultations, appointments, and health progress**.
- Doctors can manage clients, create **personalized diet plans**, add recipes, track growth metrics, and schedule consultations.
- Implemented **real-time data sync**, authentication, and progress tracking using Supabase.

JhaPay — Digital Payments & Restaurant Wallet App

React Native, Supabase, Stripe — **Frontend Developer**

[Play Store Link](#)

- Built a fintech application enabling customers to pay restaurants via **QR code** or restaurant ID.
- Implemented a secure **wallet system**, transaction history, and **real-time payment tracking**.
- Integrated **Stripe payments** and **biometric authentication** for enhanced security.
- Added **map-based nearby restaurant discovery** and menu browsing.

Boxio — Club Event & Ticketing Platform

React Native — **Frontend Developer**

[Play Store Link](#)

- Developed an event management platform for clubs in Australia.
- Users can follow clubs, book **event tickets**, purchase **merchandise**, and earn **redeemable reward tokens**.

- Implemented authentication, club discovery, **ticket booking**, and order management.

Lompa — Reels-based E-Commerce Platform

React Native, GraphQL — **Frontend Developer (Team Collaboration)**

- Built a **short-video (reels) based shopping platform** with seller and customer roles.
- Sellers can upload reels with **tagged products**, manage **inventory, pricing, and variants**.
- Customers can purchase products directly while scrolling videos and track **orders, returns, and refunds**.
- Implemented **real-time chat**, order management, dispute handling, and inventory tracking.

SKILLS

Technologies: React Native, JavaScript, CSS, Supabase, GraphQL

AI Tools: Cursor, Antigravity, ChatGPT, Claude

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering

Gujarat Technological University

2018 – 2022

CGPA: **8.75**
